Groupe de Travail
Interaction Tangible

PROGRAMME DES 3^{ÈME} RENCONTRES

7 et 8 Juin 2012

ESTIA, Bidart, France

*Bâtiment 1, salle Eguski, 1^{er} étage
Building n°1, room Eguski, upstairs*

Soutenu par / Supported by

Jeudi 8 Juin

9:00 : Accueil, Thé, café & croissants / Wellcome

10:00 : Talk by *Jens Geelhaar (Univ. Weimar, Germany)*
« **The Tangible Computing Group in the German Society of Computer Science** »

11:00 : Discussions about « **European perspectives and initiatives in Tangible Computing** »

12:30 : Déjeuner / Lunch

14:00-16:45 : Atelier 1 « **Brainstorming : definition of the European works specificities (vs US) and the European perspectives** »

And also listing the different existing groups and networks, identifying lecturers for a summer school (in 2013), etc.

animated by Jens Geelhaar (Univ. Weimar, Germany) and Patrick Reuter (LaBRI, INRIA, Univ. Bordeaux)

17:00-18:00 : Visite de la plateforme PEPSS à l'ESTIA

20:30 : Diner à Biarritz

Vendredi 9 Juin

09:00 : Talk by *Brygg Ullmer (LSU, USA)*

« **Of medium and message: tangibles past and future** »

This partly refers to Marshall McLuhan's "the medium is the message".

10:00 : Pause / Break

11:00 : Discussions about Brygg Ullmer's talk

12:30 : Déjeuner / Lunch

14:00-17:00 : Atelier 2 « **Industrial case study: TUI for interacting with future LED lighting** »

The aim is to use and compare participants models, tools and techniques on the design of a TUI for interacting with future LED lighting.

animated by Céline Coutrix (LIG, Grenoble) and Guillaume Rivière (ESTIA, Bidart)

17:00 : Mot de la fin
